[N] Certain of the rates reflected in this tariff are being adjusted in accordance with the Commission’s January 20, 2022 order in Docket No. RM20-14-001, which reduced the index for the current five-year review period from PPI-FG + 0.78 percent to PPI-FG – 0.21 percent (the “March 2022 Index”). To the extent that all or any portion of that order is reversed on rehearing or appeal and the index for the current five-year period is increased from the March 2022 Index level, Carrier reserves the right to collect from shippers the positive difference, if any, between the rates resulting from application of the March 2022 Index and the rates resulting from application of the new index, for all barrels shipped from March 1, 2022 forward.
